Milk	No	Lupin	No
Molluscs	No		

Shelf Life & Storage

Best before 12 months from date of manufacture if stored under cool, dry conditions, out of direct sunlight, and unopened. Reseal after use.

Packaging

A variety of packaging can be offered to suit customer requirements, e.g. polythene sachets in cardboard boxes, liners in buckets, plastic sacks, etc. All contact materials are of food grade plastic. All products are metal detected. The sensitivities are >3mm ferrous and >4mm non ferrous.

Labelling

All products are labelled with the product name, recipe code, batch code for traceability, weight, and best before date.

Health & Safety Data

Due to the presence of sodium nitrate and sodium nitrite, which are hazardous materials, great care should be taken in the handling of this product to avoid all possibilities of ingestion, inhalation and skin or eye contact. Both sodium nitrate and sodium nitrite are toxic if swallowed or inhaled and can give symptoms of nausea, headache, dizziness, weakness, abdominal pains or shortness of breath, etc.; if ingested, induce vomiting and give plenty of water to drink, treat as for shock and seek medical assistance. For skin and eye contact, irrigate copiously and seek medical attention. In addition, both are strong oxidising agents, which in contact with combustible materials or acids, or if involved in a fire, may cause the evolution of toxic fumes composed of oxides of nitrogen. It is essential to wear the appropriate protective clothing including goggles, masks and gloves. For spillages, sweep up in the normal manner and dispose of accordingly. Small residues may be flushed away with water but do not contaminate surface water systems. Fires should be tackled with water, ensuring that dust clouds are not created during application.

Legislation & Warranty Statement

All products are manufactured according to current EU legislation. All information provided is given in good faith and based upon product formulation and data from our raw materials suppliers.

As a responsible manufacturer we take all possible precautions to eliminate traces of other food ingredients, but no absolute guarantees can be given however.

Confidentiality

The information contained in this document is confidential, and must not be disclosed to third parties without prior written permission from Spice Blenders Ltd.
